Preventing Parasites - Protecting Pets!

Free Online Lectures

- ➔ **What is ESCCAP UK?**
- ➔ **Changes to the Pet Travel Scheme (PETS)**
- ➔ **A closer look: rabies**
- ➔ **A closer look: *Echinococcus multilocularis***
- ➔ **A closer look: ticks and tick borne diseases**
- ➔ **Vector Borne Diseases: leishmaniosis and dirofilariosis**
- ➔ **Getting the message across to pet owners**
- ➔ **How can ESCCAP UK help?**

Taken from the successful CPD seminar 'Preventing Parasites - Protecting Pets', these lectures provide all the information clinicians will need in order to have informed discussions with clients about the 2012 changes to the PETS derogation.

The lectures provide an overview of the impact of the changes to PETS in relation to rabies, *Echinococcus* spp. and ticks, as well as advice about how to communicate information to pet owners and the various tools and support available.
