

ESCCAP

EUROPEAN SCIENTIFIC COUNSEL COMPANION ANIMAL PARASITES[®]

UK &
Ireland

ESCCAP UK and Ireland aim to provide veterinary and animal care professionals along with pet owners, the information and tools they need to effectively protect companion animals from parasitic threats in the UK and Ireland.

Funded Research Studentships available

Research studentships (SRS's) will be funded by ESCCAP UK and Ireland. These studentships are intended to support **undergraduate veterinary students** to expand their educational experience by developing research skills in parasitology.

The award includes a stipend of £150 per week for up to 10 weeks and £500 in research expenses.

Parasite Control in Practice Award

Are you a veterinary professional who has implemented, or would like to implement, an interesting, effective or innovative strategy for encouraging responsible parasite control in pets?

If so, we want to hear from you!

All entries will be considered and the winning person will be awarded **£500** in addition to the title of,

“Parasite Control Champion of the Year!”
